(a) Task, 100 test flights

(b) Training in simulation

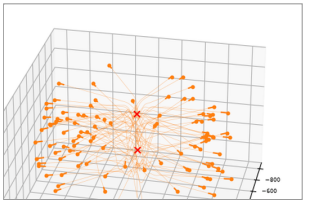

(c) Result in wind

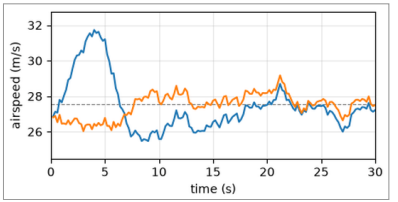

(d) Flights in simulation

3D replay, first run

100 flights at once, first run

Airspeed in wind: SAC orange, PID blue

C++, calm air: critic 256 learns, critic 64 never learns the course

Actor flown by a ROS 2 node on PX4 SITL in Gazebo

Simulation only, no real flight
